AMERICAN BULB COMPANY

CHICAGO
1335 WEST RANDOLPH STREET

NEW YORK
31 WEST 27th STREET

HYACINTHS - A. B. C. SUPREME

Our stock is purchased from sources that achieved a reputation for the high quality of their bulb output. Our prices are quoted f.o.b. New York or Chicago, and include ocean freight and duty. Our prices are in keeping with the market. Our stock is fit for particular growers who will have nothing but the best.

HYACINTHS

A. B. C. "Supreme" Quality

SINGLE RED AND ROSE

Gertrude. Rosy pink; well shaped compact truss. A satisfactory commercial variety on account of its usefulness for forcing as well as for bedding purposes.

Hjalmar Branting. Deep rose, changing to rosy red; large well filled truss. Good for forcing.

Lady Derby. Delicate rose-pink; long well shaped truss of loose form set with large waxy bells. Good for forcing as well as for bedding.

La Victoire. Bright carmine-red; truss formed of medium sized bells; strong stem. A splendid bedder and good forcer.

Marconi. Bright rose; broad truss borne on a short, stiff stem. Recommended for forcing in pots for Easter. Is also a splendid bedder.

Queen of the Pinks. Lovely bright rosy pink; large, compact truss of fine shape; bells of medium size. Strong, sturdy stem. Recommended for forcing in pots for Easter. Also good for bedding.

Pink Pearl (New). Deep pink; very early and especially recommended for forcing.

SINGLE WHITE AND BLUSH WHITE

L'Innocence. Pure white; broad, loose truss of elegant form; large, well shaped bells. The best pure white Hyacinth for all purposes. Recommended for bedding as well as for forcing.

Queen of the Whites. Pure white; large, compact spike; dwarf habit. Suitable for late pot work.

SINGLE LIGHT BLUE AND DARK BLUE

Bismarck. Light sky-blue; very large, broad truss of loose form; large, long-stemmed bells. Excellent for early forcing.

Grand Maitre. Fine deep porcelain blue; very large, broad, well formed spike; nicely curled bells. Splendid variety for forcing and excellent bedder.

King of the Blues. Deep glossy blue; splendid, well formed, long, compact spike on short stem; bells of medium size but of great substance. Late forcer, desirable bedder.

Perle Brillante. Light blue; very large, well formed truss; large bells.

Queen of the Blues. Light blue with beautiful silvery shade; large, compact truss with fine bells. Excellent bedder.

SINGLE YELLOW AND ORANGE YELLOW

City of Haarlem. Bright golden yellow; large truss. Very fine.

FALL BULB CATALOG

The Season's Best in A. B. C. Supreme Quality

We submit to you our Fall bulb catalog for 1938, offering you up-to-the-minute items.

Crops in Holland are good, much superior to last season. Reports received from Japan indicate that the crop this year is very favorable, equally as good as last season, which we all know was one of the best years they have had in Japan. Shipping facilities have been improved over last season to assure us prompt delivery and no delay in transit, as occurred last season.

Every indication shows business is improving, so it is proper to advise our customers to make every square foot of space in the greenhouse available and productive. We are now overcoming one of our most severe depressions. When prosperity is upon us and you do not possess your share of the merchandise to enable you to enjoy the demand that is ahead of us, you will miss the profits that are assured you. We feel confident that you can buy with ease and feel assured of a good market.

Our domestic bulbs such as Narcissus from the West Coast, Paper White Narcissus from Texas, are now harvested and crops are not over-plentiful but good. We

enjoy the select bulbs from three of the largest growers on the West Coast. More than a million King Alfred alone will be in our possession to enable us to deliver to you the best quality.

Our Texas Narcissus Paper Whites produced a crop of about three million bulbs, sizes running from 13 ctm. to 17 ctm., and it is well known that the Texas-grown Paper Whites are the nearest equal to the French-grown, the big bulbs often producing two and three blooms per bulb. White flowers are now in demand and a few cases of Paper White Narcissus planted at the right time will come in very handy. We recommend December planting for flowers in January when the market is the scarcest and the highest.

We invite you to inspect our warehouse, with millions of bulbs on display. We are prepared to deliver on a moment's notice. You may order through us by telegram, telephone, air mail, or regular mail.

We extend to you our best wishes for a good season, and we assure you we will do our part to help you realize this.

Splendid Mixture of All Colors	3.00	25.00

EARLY DOUBLE TULIPS

	100	1000
*Couronne d'Or. Old golden yellow, edged and flushed orange; large, full, well formed flower of great substance on strong stem. Extra for forcing. Splendid bedder....	\$3.30	\$28.00
Electra. Clear red, shaded carmine; very large double flower on strong stem. Sport of Murillo.....	3.30	28.00
El Toreador. Orange-red, terra-cotta edged; very large and full flower. Extra for forcing.....	3.30	28.00
Imperator Rubrorum. Glowing scarlet; large, full, compact, round flower. Good for forcing and splendid bedder....	3.90	34.00
*Mr. Van der Hoeft (Reve d'Or). Pure yellow; large flower. Good for bedding and forcing. Sport of Murillo.....	3.40	29.00
*Murillo (Albino). White, shaded pink toward edges of petals, giving the general impression of a delicate pink; large well shaped flower on strong stem. Good for forcing as well as for bedding.....	3.30	28.00

Early Single Tulip

EARLY DOUBLE TULIPS (Continued)

	100	1000
Orange Nassau. Blood red, flushed fiery red, with small margin of orange. Sport of Murillo.....	\$3.80	\$33.00
*Peach Blossom. Deep rose-pink, flushed white; large full flower on strong stem. Good forcer and splendid bedder. Sport of Murillo	3.40	29.00
Rubra Maxima. Deep scarlet. Good bedder.....	3.50	30.00
Schoonoord. Snow white. Sport of Murillo.....	3.70	32.00
Tearose (Brimstone Beauty, Safrano, Theeroos). Sulphur yellow and when fully developed slightly orange shaded. Sport of Murillo.....	3.30	28.00
Tournesol. Bright red with golden edge; large flower. Very early	3.50	30.00
*Vuurbaak. Bright scarlet with orange flush; very large, full flower on strong stem. Grand for bedding and a good forcer	4.00	35.00
Splendid Mixture of All Colors	3.00	25.00

PARROT TULIPS

	100	1000
Fantasy. Salmon-pink with green markings on outer petals; inside deeper salmon-pink. A sport of Darwin Clara Butt. Strong stem	\$3.90	\$34.00
Sundew. Bright red with white base. The upper edges of the petals are beautifully fringed, crystal-like, very attractive; unlike any other Tulip in existence. It really is not a true Parrot Tulip, but a Darwin with fringed edges.....	3.00	25.00
Mixed	3.00	25.00

* Recommended for forcing.

BREEDER TULIPS

	100	1000
Bacchus. Deep violet-blue with dusky grape-like bloom on outer petals and white base. Very large egg-shaped flower	\$3.80	\$33.00
Bronze Queen (Clio). Bronzy buff; inside golden bronze with yellow base; very fine for outside planting; good for forcing	3.00	25.00
Cardinal Manning (Goliath). Rose-violet, flushed rosy bronze, changing to orange at the edges of the petals.....	3.50	30.00
Don Pedro. Dull coffee-brown; inside glittering mahogany with olive streaked yellowish base.....	3.50	30.00
Jaune d'Oeuf (Sunrise). Orange-yellow, flushed pale lilac on outer petals; inside soft yellow with dark greenish base	3.20	27.00
Louis XIV. Dark purple, flushed bronze with broad margin of golden brown. Large, stately flower.....	4.00	35.00
Lucifer (Gorgeous). Soft orange-red; inside scarlet-orange with yellow base. A very attractive variety.....	4.10	36.00
Panorama (Fairy). Brownish orange-scarlet with faintly bluish bloom. Fine for bedding; good for forcing.....	3.70	32.00
Prince of Orange (Orange Beauty). Orange-red, flushed terracotta, with narrow orange-yellow edges; olive base, streaked yellow	3.50	30.00
Yellow Perfection. Light greenish bronze-yellow with lilac blotch and flush on outside petals; dark base.....	3.50	30.00
Mixture of All Colors	3.10	20.00

COTTAGE TULIPS

	100	1000
Albino. Pure white with yellow anthers. Shorter than Carrara. Excellent for forcing.....	\$4.30	\$38.00
Argo. Golden yellow with orange-red spots and flush, passing to deep reddish orange when in full bloom. Dark base and black anthers.....	3.50	30.00
Carrara. Pure with yellow anthers. Large globular flower. An outstanding variety.....	4.20	37.00
Dido. Orange-red, slightly flushed cerise, with amber-orange edges; inside salmon-orange with yellow base passing to slatish green, and yellow anthers.....	3.20	27.00
Fairy Queen. Rosy heliotrope with broad amber-yellow edges	3.10	26.00
Gesneriana Lutea. Pure golden yellow.....	3.10	26.00
Gesneriana Sphatulata. Dazzling scarlet with a bluish base.....	3.10	26.00
Grenadier. Bright orange-red with yellow base; large, sweet-scented flower	3.10	26.00
Inglescombe Yellow. Canary yellow with yellow anthers. Color will sometimes change to orange with orange-red due to warm climatic conditions.....	3.10	26.00
John Ruskin. Salmon-orange, flushed rosy lilac with yellow edges; oval shaped flower.....	3.10	26.00
Moonlight. Soft pale yellow; very long slim flower.....	3.50	30.00
Mrs. Moon (Fulgens Maxima Lutea; Mrs. Clarke). Pure deep yellow; pointy flower with slightly reflexing petals....	3.50	30.00
Picotee (Maiden's Blush). White, the graceful reflexing petals are margined deep rose. When in full bloom the whole flower is suffused rose-pink.....	3.10	26.00
Rosabella. Deep rose with light edges; inside soft rose with creamy white base and black anthers. Exceptionally good variety for outside planting.....	3.50	30.00
Sirene. Satin-rose with white base; suitable for forcing in March. Lily flowering.....	3.30	28.00
The Fawn. Light rosy lilac, flushed yellow with creamy yellow edges; unique color. Egg-shaped flower.....	3.10	26.00
Extra Fine Mixture	3.00	25.00

MENDEL TULIPS

	100	1000
Early Beauty. Deep rose, white center. Medium early forcer.....	\$3.10	\$26.00
Handel. White edged light pink. Medium early forcer. Good keeper	3.20	27.00
Prof. Zeeman. Deep salmon-pink, suffused orange; yellow center. A splendid color; large flower.....	3.50	30.00
Sonja. Cherry-rose. A strong flower of beautiful color and noble form. Early forcer. Excellent pot tulip.....	3.40	29.00
The Rose. Lilac-rose, white center, late.....	3.20	27.00
Weber. White with broad border of pink; large flower of noble form and great substance on tall stem. Medium early forcer	3.80	33.00
Zenober (Leonidas). Cochineal red; black center with greenish halo. Recommended for early forcing.....	3.50	30.00
Fabriola. Rich orange-salmon; early.....	3.70	32.00

Breeder Tulip "Bacchus"

TRIUMPH TULIPS

	100	1000
Alberio. Glossy cherry-red with very small yellow rim around petals; large flower of good substance. Good bedder and early forcer. Good keeper.....	\$4.30	\$38.00
Algieba. Heliotrope passing to pale mauve towards the edges. A very attractive color.....	3.20	27.00
Edith Eddy. Purple-carmine with small white edge and white base; strong flower of good substance on strong stem. Medium early forcing variety.....	4.00	35.00
Kansas. White with yellow base and center; suitable medium early forcing variety.....	4.40	39.00
Ursa Minor. Even golden yellow; cup-shaped flower on medium sized strong stem. Early forcing variety. Recommended for pots and pans.....	4.70	42.00
Telescopium. Violet-red suffused red-violet at the base. Large flowers of great substance on tall, strong stem. Can be forced for February blooming.....	3.30	28.00
Virgo. Fine pansy violet with large white center; tall and early	4.20	37.00

BOTANICAL TULIPS

	100	1000
Clusiana. White, cherry-red outside. Must be forced cool. Needs plenty of spacing. Start forcing about February 10th to bloom March 10th. Extremely dainty.....	\$4.00	\$35.00

6 to 7 centimeters.....	2.80	23.00

CULTURAL HINTS

Bulbs for forcing are delivered about the middle of September. It is best to plant them at once in pots or in boxes, or if this should be impossible, spread them out on trays in a cool and dry place to prevent rooting. The bulbs can be planted in bulb pans or in flats, the same as other bulb stock. Irises require more water than any other bulbs and the soil should always be somewhat damp; however, there must be sufficient ventilation in the greenhouse during the period of forcing.

NARCISSUS . . . DAFFODILS

Above illustration shows a section of one hundred acres in Oregon devoted to the production of King Alfred Narcissus for The American Bulb Co., Chicago and New York.

NARCISSUS

TEXAS-GROWN PAPER WHITE NARCISSUS

FOR EARLY GREENHOUSE FORCING AND RETAIL SALE

Successfully cultured in water, using bowls or any container with a depth of three inches or more.

CULTURAL INSTRUCTIONS—for Home Planting

1st Operation. Place bulbs in an upright position. Use beach-stones, shells, or any other material in your possession to hold bulbs upright.

2nd. Fill bowl with water up to two-thirds of the bulb. Place bowl in a dark place in the house until root-action starts and foliage appears. Then remove bowl to a light place and allow bulbs to bloom.

3rd. When bulbs are in bloom try to maintain as cool a temperature as possible, to prolong the life of the flowers. Provide for successive blooms by planting new bulbs every ten days throughout the winter season.

4th. If you are located in a southern climate, after bulbs have bloomed you can remove them to your garden and plant in the soil in a permanent place.

Freesias — A. B. C.'s Improved Purity Superflora

F R E E S I A S

Some bulbs mature early, and Freesias are among them. Batches of these bulbs can be started from August onward, putting the last planting in during early December. It does not pay to start the bulbs as soon as they are received. They require a certain period of rest, and many failures in the growing of Freesias, as well as bulbous Irises and Gladioli, are due to the bulbs not having the rest needed.

Many years ago florists grew the old variety "Refracta Alba," cut-flowers with short stems. Then came "Purity, Superflora," Golden Daffodil, Elder's Giant White and many others in quite a range of colors. White still remains easily the best seller and is the most useful for growers to handle who require flowers for design work, but Golden Daffodil forces into flower more easily, and the other colors—pink, lavender, blue and carmine—all have their place. However, it is likely that if the average small florist will use fully three-fourths white, he will not go far astray. Order your bulbs now. They should certainly not be planted right away, but given a period of rest, after which they will come away quickly as well as evenly.

AMARYLLIS — Giant American Hybrids

The value of Amaryllis depends on the quality of the strain. We buy our bulbs from several sources of known reputation and mix these strains ourselves, thus making certain that you get the best obtainable. Every bulb we ship is of flowering size and many produce more than one flowering stem.

CALLAS . . . Their Culture

From Bulletin of the Illinois State Florists' Association, Urbana, Illinois, Prof. H. B. Dorner, Editor.

"CALLAS — As a result of our experiences the past few seasons, we have decided to put all of our Callas in pots. When the plants are in pots any which show signs of disease can be discarded before the disease has a chance to spread the way it does in the bench. Last year we disinfected part of the bulbs with corrosive sublimate, part with formaldehyde, while some were left untreated. Toward spring soft rot started in the untreated end of the bench and spread through the other sections. This may occur, as this spring to some extent, even where all of the bulbs are treated. This is not an argument against treating Calla bulbs, which is well worth while, but on the other hand there may be rotted spots in some bulbs which are not reached by disinfectant. Clean the bulbs carefully, treat them, and then, for maximum safety, plant in pots."

AMERICAN BULB COMPANY LILY HEADQUARTERS

A. B. C. SUPREME QUALITY LILIES

A House of A. B. C. Supreme Quality Lilies — Easter, 1938
Lilium Giganteum. Grown by Albert D. Jenk, Chicago, Illinois

The reputation we have achieved is based on the fact that it has always been our aim to secure and supply our customers with the best bulbs the crop produces from year to year. All our growers and suppliers have assisted us to achieve this, and establish this reputation for the standards of A. B. C. Supreme Quality.

On July 15, we received a cable from our Japanese Lily suppliers stating that the prospects for a good crop are favorable, and that we could anticipate good deliveries without any delays.

The 1938 crop will be ready presently. Prices on all types have not been established at this printing, but be assured of our most favorable figures and finest stock on your requirements received at this time.

Japanese Early Flowering Erabu (Hayai) December 3, 1937
Grown by Martin Goerger, Arlington Heights, Illinois

LILIUM GIGANTEUM

PLANTING TABLE FOR COLD STORAGE LILIUM GIGANTEUM AND FLOWERING DATES

Planting Date	Flowering Date	Planting Date	Flowering Date
January 1st	April 15th to 25th	May 15th	August 20th
January 15th	April 25th to May 5th	June 1st	September 1st
February 1st	May 15th to 30th	June 15th	September 15th
February 15th	June 1st to 10th	July 1st	October 1st
March 1st	June 10th to 30th	July 15th	October 15th
March 15th	July 1st to 10th	August 1st	November 1st
April 1st	July 15th to 30th	September 1st	November 25th
April 15th	August 1st	September 15th	December 15th to 25th
May 1st	August 10th	October 1st	January 1st to 10th

Lilium Speciosum Rubrum "Magnificum" planted on the above named dates will take six to eight weeks longer to flower than Lilium Giganteum.

Lilium Rubrum "Magnificum" should be planted June 15th to July 1st to flower for Christmas.

The above, however, are all approximate flowering dates. If extremely warm weather exists meantime they may flower a month earlier. It largely depends on weather conditions.—A. B. C.

LILIUM ERABU HAYAI

Delivery September

Lilium Erabu Hayai is an exclusive strain developed for The American Bulb Company, consistent with the leadership of A. B. C. Supreme Quality Lily bulbs. Growers of the thousands of cases that were sold by us this past season have been well satisfied with Hayai and have recommended them most highly for their extreme earliness of bloom. Our good growers have given us their cultural methods so that we could pass this information on for the benefit of our customers this season. We recommend that you try this outstanding new strain.

LILIUM CANDIDUM (Madonna Lily)

Imported French Grown

Note! Liliium Candidum is nowadays primarily planted outdoors, bulbs being set soon after their arrival from France. (Cover them not more than 2 inches.) In days gone by, Liliium Candidum was largely cultured under glass, although this plan is still followed to some extent. However, they must be grown cool, never more than 55 degrees at night. Liliium Candidum and Delphinium Belladonna bloom at the same period outdoors and provide a most "happy combination."

Prices on Application

LILIUM PHILIPPINENSE FORMOSANUM

A distinct Lily of refined and graceful appearance, with long, grassy foliage and exquisitely shaped long, wide-mouthed trumpet flowers of the purest white, slightly colored externally with reddish brown. This outside coloration fades as the flower matures. Blooms September. Height, 3 to 6 feet. Plant 8 inches deep.

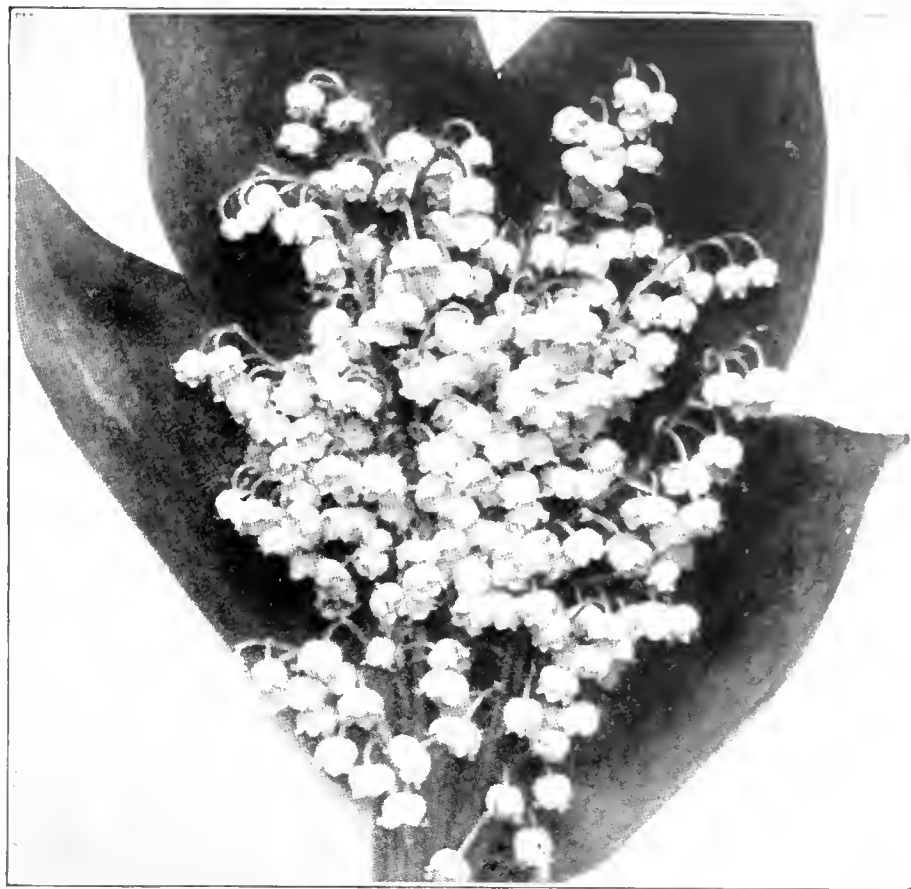

Per doz.....\$1.25 Per 100.....\$9.00

LILIUM TENUIFOLIUM

(So-called "Miniature Lilium Rubrum")

For under-glass culture, they can be planted in a Darwin Tulip bulb pan, set 4 inches deep and 3 inches apart, since they are a stem rooting type. They come into bloom in approximately 14 weeks. Also, owing to their slender stems and fine, narrow foliage, Lilium Tenuifolium can be planted between Carnations right in the benches. Color, brilliant scarlet. Flowers outdoors in June, perfectly hardy.

Strong Blooming Bulbs. 100.....\$7.00 1000.....\$60.00

A. B. C. "Supreme" Quality Valley Pips

LILY-OF-THE-VALLEY PIPS

Re-selected Exhibition German Pips

The reputation of A. B. C. Supreme Quality Lily-of-the-Valley is so well established in the trade that little can be added by any commendation on our part.

Beside their cut-flower worth, Lily-of-the-Valley have an added sales value in that Pips can be sold profitably for planting in various receptacles in the home. They can easily be bloomed in four weeks, in moss, sand or soil. A great deal of interest can be created by displaying about 12 growing Pips in a fancy bowl in some prominent spot in your store. The ease with which they can be grown will interest most of your customers in buying them. If merchandised properly, you will find them an extremely profitable item.

Sold in quantities of 100, 250, 500 and 1000 Pips, from cold storage. They are available for immediate delivery.

Prices on request.

LILY-OF-THE-VALLEY CLUMPS

For Outdoor Culture

A permanent investment for your "Garden Planter" customers. Dozen.....\$3.00 100.....\$20.00

FEEDING LILIES

Put two bushels of fresh cow manure in a sack with a peck of soot (preferably the imported Scotch brand) added, and immerse in fifty gallons of water in a barrel. Allow this to stand a day before using. The liquid will be much too strong to use undiluted. At first use one part liquid manure to five parts water; later, as the manure water becomes weaker, the concentration can be doubled. Varieties like Erabum, Candidum, and Speciosum will stand heavier feeding than Auratum, Hansonii, Tenuifolium and Umbellatum. It will be necessary to give the bag of manure good pokings with a stick from time to time properly to exude the juicy liquid. All varieties of Lilies which are grown for cut-flower purposes are much improved by waterings with liquid manure as soon as the pots are filled with roots.

Double Flowered Tuberous-Rooted Begonia

TUBEROUS-ROOTED BEGONIAS
"True Belgian Strain"

For Pot Plants and Bedding. Also the Double Forms are desirable as cut-flowers (the stems to be wired)

An early-flowered batch of the showy Tuberous-Rooted Begonias will always be appreciated. And as the tubers are offered either in separate colors or in mixture at reasonable rates, there is no reason why every country florist doing a retail business should not handle a few of them. Both double and single-flowered types may be had. The tubers when received may either be potted at once in a mixture of loam, extremely old manure and sand or placed in peat moss on a bench and lightly sprayed until the top growth and roots start. Usually 4-inch pots will answer well for the tubers, although if larger plants are desired, they can later be given a shift.

Not only are the large-flowered Begonias useful as potted plants, but later they are excellent to plant in window porch boxes where there is considerable shade, as well as for bedding out in positions that are so shady other bedding plants will flower little if at all.

1 to 1½ inch.....	\$ 6.00	\$ 55.00
1½ to 2 inch.....	9.50	90.00
2 inch and up.....	14.00	135.00

Florists on the West Coast recently found a profitable outlet for Double Tuberous Begonia blooms by utilizing them for corsages and table decoration (the stems being wired). This new fashion is now sweeping the country, the flowers commanding a price on a par with that of Orchids and Gardenias.

FANCY LEAVED CALADIUMS
"True Brazilian Type"

Ready in January

There are no finer colored foliage plants for summer use; splendid for the conservatory and equally good for porch boxes outdoors in shaded places. The stock offered is grown for us by the leading specialist in this line and represents only the choicest, highly colored varieties.

FUNKIA

Undula Variegata. Potted about February they will in a few weeks provide most attractive pot plants. The handsome white and green foliage makes

this Funkia ideal for use in combination pots and for Easter, etc.
10.....\$1.50 100.....\$10.00

PEONIES

The increasing retail demand for Peonies justifies your planting liberally of these high quality young roots. Peony sales were one of the bright spots in the market this past season.

AVALANCHE. A magnificent flower which opens like a rose. Pure white with a few pencillings of carmine on the edge of center petals. Fragrant; crown type; late midseason. An old variety, but one that will stand comparison with anything there is.
10.....\$2.00 100.....\$16.00

BARONESS SCHROEDER. Rose type; late. White with shading of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant. 10.....\$2.00 100.....\$18.00

CHARLES McKELLIPP. Crown type; midseason. Opens rose-shaped and develops into crown type. The irregular rich crimson petals of the center are mingled with gold stamens and surrounded by rows of broad, silky guard petals. It has a charm peculiarly its own. 10.....\$2.00 100.....\$18.00

FELIX CROUSSE. Large, typical bomb-type flower of clear, brilliant red, coming in late midseason. The guard petals are prominent, surrounding a large, globular center of even coloring. It is a strong, vigorous plant of spreading habit. 10..\$2.00 100..\$15.00

FUYAJO (Japan). One of the most distinct of all Japanese varieties. Outer petals dark rich mahogany-red surrounding a full center of broad transformed flat petaloids of same dark red; tipped chamois. 10.....\$4.00 100.....\$35.00

KARL ROSENFELD. A better Peony and a better quality of red than any of the older red sorts; pure, rich, intense crimson of half-rose type. It makes and remains a splendid full rounded flower of excellent substance; equally valuable as cut-flowers or garden show. 10.....\$2.00 100.....\$15.00

KELWAY'S QUEEN. Fragrant flesh pink. Midseason. If you have this variety in your planting, you have what is considered the flower of the aristocrat. 10.....\$7.00 100.....\$65.00

LA PERLE. Very large flowers, compact rose type. Outer petals are delicate lilac-white inclosing a globular center of soft, violet-rose wide petals. 10.....\$2.00 100.....\$16.00

MARIE JACQUIN. The water-lily Peony. Semi-double, cup-shaped white flowers, borne in great profusion. Beautiful landscape variety. Midseason. 10.....\$2.00 100.....\$16.00

MARTHA BULLOCH. Silvery shell pink at the edges, shading to deep rose pink in the center. 10.....\$3.00 100.....\$25.00

MME. JULES DESSERT. Large, flat semi-rose type. Flowers are delicate flesh pink, shading to straw white. 10.....\$2.50 100.....\$20.00

MONS JULES ELIE. Bomb type; early midseason. King of all Peonies. Color an ideal glossy lilac-pink, shading to a deeper rose at the base, the entire

Peonies in the better varieties

flower overlaid with a sheen of silver. Ideal for cut-flowers. 10.....\$2.00 100.....\$16.00

OFFICINALIS RUBRA FL. PL. Rich deep crimson; the great Decoration Day Peony. 10.....\$3.00 100.....\$25.00

REINE HORTENSE. Semi-rose type flower is uniform hydrangea-pink; guards and center petals marked carmine. 10.....\$2.50 100.....\$20.00

SARAH BERNHARDT. Semi-rose type. Midseason. Apple blossom pink, with each petal silver-tipped. 10.....\$3.00 100.....\$25.00

SOUV. DE CHAS. GOMBAULT. One of the most outstanding varieties. It is tri-color, flowers are built up crown shaped. It is much admired for its beauty; at the same time it is different than the general list of the clear colors. Fine lasting qualities. We like it very much. 10.....\$2.00 100.....\$18.00

THE NEW DOUBLE BEGONIA "WESTPORT BEAUTY"

A new, outstanding Begonia of semperflorens type, with perfectly double flowers which do not drop. The large rose-pink flowers are carried in graceful clusters of eight or ten, and are produced in great profusion. The result of a cross between Begonia Multiflora and Begonia Semperflorens, "Westport Beauty" is practically ever-blooming. A well-flowered plant may be had in a three-inch pot, while by keeping the buds picked off, it can be grown to six-inch size.

Making an exceptionally pretty pot plant, of easy culture, it will prove invaluable for holiday sales, especially for Mother's Day. As a bedding plant, "Westport Beauty" tops all other Begonias. Easily propagated by cuttings, it grows rapidly with no more care than required by bedding Begonias. Awarded Certificate of Merit at the Chelsea Show, England, May, 1936. First Prize at the Dresden Exposition, Germany, 1936.

Price—2 1/4-inch pot plants: 100.....\$12.50 1000.....\$100.00
Delivery September, 1938, to January, 1939. Orders filled in rotation as received.

As this novelty is offered without any patent restrictions and at a very reasonable price, we can not accept any orders for less than fifty plants.

GYPSOPHILA "BRISTOL FAIRY"

This Gypsophila is now too well known for detailed description. We have for sale this fall a real nice planting of field grown roots which are of

outstanding quality. For the best results it is advisable to plant these in September. In December cover them slightly with corn stalks or straw, just enough to keep the winter sun away from them. This covering, of course, should be removed in early spring. Soil in which they are planted should be well drained.

Field Grown Roots. 10.....\$2.50 100.....\$20.00

NOTE: We are also booking orders now for 3-inch pot plants for spring 1939 delivery. Price: 10.....\$2.00 100.....\$15.00

DELPHINIUM (Perennial Larkspur)

Belladonna Larkspur. Planted in a solid bench in January-February and carried in a temperature of 45 degrees to bloom in May, usually provide profitable cut-flowers. We have a special strain of the light blue variety "Cliveden Beauty" and furnish strong roots that have been specially prepared for forcing.

1 year forcing grade. 10.....\$1.50 100.....\$10.00
2 year forcing grade. 10.....\$1.75 100.....\$15.00

DICENTRA (Bleeding Heart)

Spectabilis. With maiden hair fern-like foliage and with graceful stems hanging full of little heart-shaped flowers, Dicentra Spectabilis provides a most desirable pot plant for St. Valentine's Day and Easter sales. About 60 days are required to bring them into bloom. Start at 45 degrees and advance to 55 degrees.

Large Forcing Roots. 100..\$25.00 Medium Forcing Roots. 100..\$20.00

LARKSPUR

Cinnabar Cockade (New). Cinnabar is a rich, brilliant rose red; plants are compact and symmetrical, throwing long spikes of very double flowers. Cinnabar has the same graceful habit as Blue Cockade. This variety is destined to be the florists' favorite for cut flower purposes; its brilliant color and long spikes have great buying appeal.

Tr. Pkt.....35c Oz.....\$2.25 ¼ lb.....\$7.50

Larkspur Giant Imperial Cattleya. This is a late flowering variety (two to three weeks later than other sorts); this lengthens the flowering season; has a rich rosy lilac color and fully double flowers which are closely spaced on 4 to 5 foot stems. Highly commended by the Royal Horticultural Society, 1934. Tr. Pkt.....25c Oz.....75c ¼ lb.....\$2.50

Larkspur Giant Imperial Dazzler. Rich lustrous carmine color; blooms a week to ten days earlier than any of the other varieties; Dazzler is an ideal florists' variety, also desirable for the home gardener.

Tr. Pkt.....25c Oz.....75c ¼ lb.....\$2.50

Larkspur Giant Imperial Sweet Lavender. A delightful shade of rich blue lavender; the flowers are large and fully double; closely spaced on a long flowering stem. Commended by the Royal Horticultural Society, England.

Tr. Pkt.....25c Oz.....75c ¼ lb.....\$2.50

STOCKS

A. B. C. "SPECIAL FLORISTS' STRAINS"

GIANTS OF CALIFORNIA, "The World's Best Double." This magnificent new group is so marked in improvement that we believe they will head the list in florists' forcing Stocks in the very near future. Giants of California are very early flowering, with a high percentage of double mammoth flowers, and they have the branching habit of the Bismarck. If planted close, they will attain the height of 2½ to 3 feet. We feel this strain justifies our highest recommendation.

GIANT COLUMN (Non-Branching Double Excelsior). This new type produces one enormous spike 2 to 3 feet in height and is especially adapted to greenhouse culture, as the plants can be grown close together. We are listing below the only colors that in the opinion of the leading growers will satisfactorily give a high percentage of doubles. They are, in our opinion, the only reliable colors to grow.

SWEET PEAS

EARLY OR WINTER FLOWERING

SHIRLEY TEMPLE (Waller-Franklin). Waller-Franklin consider this their most beautiful origination; obtained through a cross between Pinkie and Lady Gay; inherits size and richness of color of Pinkie with dainty fluted flowers of Lady Gay; the color is softer and more beautiful than Pinkie; the stems are long, with four blooms on each stem. ½ oz...25c Oz...40c ¼ lb...\$1.50 Lb...\$5.00

DAPHNE. Winner of a Silver Medal at a recent International Flower Show in New York City; this Sweet Pea is a soft salmon-pink on a cream ground; the flowers are of great size, with beautifully expanded and waved standards. Many of the blooms are duplex and borne on long stout stems.

Oz.....30c ¼ lb.....\$1.75 Lb.....\$6.50

TAHOE (New). Excellent dark blue; good stem and well formed flower. ½ oz.....30c Oz.....50c ¼ lb.....\$1.75 Lb.....\$6.50

BACCHUS (New). Deep maroon-purple; large flowers. Outstanding. ½ oz.....30c Oz.....50c ¼ lb.....\$1.75 Lb.....\$6.50

WINTER SWEET PEAS. The following varieties are the "cream" of the early-flowering Sweet Pea family.

½ oz. Oz. ¼ lb. Lb.

Ball Rose Improved. Deep bright rose color; strong growth; free-flowering.....\$0.20 \$0.35 \$1.20 \$3.75

Ball Orange Improved. Pure orange without cerise shading; the only pure early-flowering orange30 .45 1.60 5.50

Ball White. Strong-growing, long-stemmed, white-seeded pure white; we prefer not to sell white-seeded pea seed because of the ease with which it rots unless sown in moist soil and not watered until it germinates. "Hope" in its place..... .25 .35 1.35 4.50

Bridesmaid. Extra light rose or silvery pink; extra large flowers and long stems; new color in early peas..... .20 .35 1.20 3.75

Boon. An even salmon-rose-pink; extra large flowered20 .35 1.20 3.75

Harmony. The best lavender; long stemmed and vigorous growth..... .20 .30 1.00 3.50

Hope. While not as pure in color as Ball's White, this variety is practically clear white, with the advantage of being black-seeded. .20 .30 1.00 3.50

Josie. Longest stemmed, clear rose-pink; most productive variety in any color; requires more headroom..... .20 .35 1.30 4.00

Laddie Improved. Extra long-stemmed; rose color20 .30 1.00 3.50

Majestic Rose. Though not as long-stemmed or productive as Josie, it is preferred by some growers..... .20 .30 1.00 3.50

Mrs. Hoover. Best long-stemmed blue; strong growth, requiring 12 to 15 ft. of headroom when planted early on ground beds.. .20 .30 1.00 3.50

Mrs. Holsher. Very good rose-pink..... .20 .30 1.00 3.50

Sequoia. Extra-large, long-stemmed, fairly deep salmon-rose20 .35 1.35 4.00

Top Hat (New). Deep bright violet-blue, fine growth20 .30 1.00 3.50

Triumph. Extra long-stemmed; lilac-mauve. .20 .30 1.00 3.50

WINTER FLOWERING SWEET PEAS

American Beauty. Extra large, long-stemmed rose.

Amethyst. Rich bright purple.

Annie Laurie. Bright shade of rose-pink. Medium size.

Apollo. Salmon-cerise, long-stemmed. Fine for spring.

Attraction. Rich salmon-rose, long-stemmed.

Aurora. Orange-scarlet striped. Novelty color. Fine.

WINTER FLOWERING SWEET PEAS (Continued)

Ball's Blue. Bright mid-blue, extra free flowering.

Ball's Orange. The standard clear deep orange.

Ball's Rose Queen. Extra long-stemmed rose-pink.

Blue Bird. Mrs. Hoover is better.

Bright Light. Vivid orange-scarlet.

Chevalier. Dark rose.

Columbia. Pink and white bicolor.

Eileen. Rich deep pink, large and long-stemmed.

Eleanor Blue. Light blue, for spring flowering only.

Flamingo. Orange-salmon, long-stemmed.

Fragrance. Orchid-lavender, prefer Harmony.

Giant Rose. Well-named but not long-stemmed.

Greeting. Lavender.

Grenadier. Poppy-scarlet. Rather heavy shade.

Harlequin. Bicolor chocolate. Attractive novelty.

Heather Bell. Rosy lavender, medium size but free.

Indigo Blue. Dark shade of clear blue.

Jeanne Mamitsch. Clear rose, long stems.

Lavanda. Lavender.

Louise Gude. Bright rose. Medium size.

Maroon Prince. Dark maroon, rather heavy.

Michigan. Large lavender.

Mrs. Kerr. Salmon.

Oriental. Black-seeded cream.

Pride. Extra long-stemmed brilliant cerise.

Prosperity. Soft-glowing rose-cream.

Red Bird. Crimson red.

Snowstorm. Prefer black-seeded kinds. Medium size.

Spring Song. Salmon-pink. Medium stem.

Success. Extra bright deep rose-pink.

Sunray. Light cerise, fine long-stemmed.

Susanna. Rather heavy. Carmine-red.

Vogue. Light bluish lavender.

Vulcan. Prefer early Bright Light.

White Harmony. Extra long-stemmed black-seeded.

Zvolanek's Rose. Laddie is much better.

A. B. C. Early Mixture. A combination of above colors, including a large proportion of the standard kinds.

ANY ABOVE PRICED AT:

½ oz.....20c Oz.....30c 4 oz.....90c Lb.....\$3.40

LATE OR SUMMER FLOWERING SWEET PEAS FOR SPRING BLOOM

Ambition. Finest deep lavender.

GLADIOLUS

ANNUAL PRODUCTION: 20,000,000 BULBS (Approximately)

We list here the varieties in various colors that we believe will be the most profitable for you to grow. These varieties enjoy an excellent retail acceptance.

The bulbs marked (*) are recommended for forcing. The bulbs we supply for forcing under glass have been especially cultured and are scientifically treated for that purpose.

Send us your requirements, and we shall quote you our most favorable prices. As one of the largest Gladiolus growers in the country, we are in a position to supply you to advantage, in quality, selection and price. (The list below is a partial list—we can supply any variety.)

RED AND ROSE VARIETIES

- *Dr. Bennett. Brilliant scarlet.
- Chas. Dickens. Violet-red, dark blotch.
- *Excellence. Early orange-red (a Kunderd First Prize seedling). Choice cut-flower variety.
- *Flaming Sword. Early deep red.
- Helga. Salmon-rose.
- *Mrs. F. Pendleton. Rose-pink.

- Predominator. Pure salmon-scarlet (Kunderd First Prize seedling). Exceptional cut-flower variety.
- Pride of Wanakah. Deeprose, deeper blotch.
- Rose 1910. Early deep rose-pink.
- Red Phipps. Excellent rose-red.
- *Virginia. Scarlet-red.
- Wurtembergia. Scarlet, cream blotch.

PINK VARIETIES

- *Betty Nuthall. Coral-pink.
- Debonair (New). La France pink.
- Early Beauty. Earliest of all salmon-pink.
- E. J. Shaylor. Rose-pink.
- *Giant Nymph. Tall pink.
- Highland Laddie. Pink.

- *Los Angeles. Salmon-pink.
- Mrs. Leon Douglas. Giant pink.
- *Mrs. P. W. Sisson. Cameo-pink.
- *Odin. Deep salmon pink.
- *PICARDY. New shrimp pink.
- W. H. Phipps. La France pink.

ORANGE-YELLOW-APRICOT VARIETIES

- *Apricot Glow. Tall clear apricot.
- Golden Dream. Golden yellow.
- Kunderd's Yellow Favorite. Fine yellow.

- *Miss Bloomington. Best yellow for cutting (Kunderd 1st Prize seedling). Good keeper.
- *Orange Queen. Apricot-orange.

WHITE VARIETIES

- *Albatross. Fine white.
- *Chicago White. Early white.
- Helen Wills. White, cream throat.
- Mammoth White. Pure white.
- *Polar Ice. Early, fine white.

- *Maid of Orleans. Large white. European seedling. First prize winner in numerous shows. Opens well. Outstanding white.
- Star of Bethlehem. Large white.
- White Triumphator. Large white.

LAVENDER AND VIOLET VARIETIES

- *Berty Snow. Lavender.
- *Minuet. Delicate lavender.

- Mrs. Konyenburg. Light blue-violet.
- Pelegina. Dark violet.

PICARDY

Picardy has proved to be the most outstanding cut-flower Gladiolus introduced in the past decade and this very worthwhile variety has created no end of unusually favorable comment from the trade and public alike.

GLADIOLUS IN MIXTURE

KUNDERD'S "GLORY" STRAIN

Especially recommended to Florists, Nurserymen and Seedsmen for "bulb merchandising" to the public, for garden show or the production of mixed cut-flowers.

Contains a good selection of Kunderd varieties with a large range of color.
